ANNOUNCEMENT
COMMENCEMENT OF PRODUCTION AT MALAYSIAN PLANT

The board (the “**Board**”) of directors (the “**Directors**”) of Comtec Solar Systems Group Limited (the “**Company**”) is pleased to announce that the Group’s production facilities in Malaysia (the “**Malaysia Plant**”) have commenced trial production in June 2014.

The Board would like to update the shareholders of the Company regarding the development of the Malaysia Plant. The Malaysia Plant is primarily engaged in the production of monocrystalline ingots and wafers with a designed annual production capacity of 300 Megawatts. In June 2014, the Malaysia Plant commenced trial production. The Company will continue to ramp up the production capacity of the Malaysia Plant during the third quarter of 2014. The Company expects that upon the completion of the ramping up of the Malaysia Plant, the Malaysia Plant will enable the Group to increase its scale of production, enhance its competitiveness in terms of production cost, and will provide the Group with production capability outside of China, mitigating the Group’s exposure to risks related to China’s trade disputes with other countries.

Shareholders of the Company and potential investors should exercise caution when dealing in the shares of the Company.

By Order of the Board
Comtec Solar Systems Group Limited
John ZHANG
Chairman

Shanghai, the People’s Republic of China, 6 June 2014
