Comtec Solar to present at Piper Jaffray 2010 Fifth Annual Clean Technology and Renewables Conference

- **Will be participating in more investors conference to raise its corporate profile**

Hong Kong, 8 February 2010 – Comtec Solar Systems Group Limited (“Comtec” or the “Company”, together with its subsidiaries the “Group”, stock code: 712), a PRC-based leading manufacturer of monocrystalline solar wafers, will present at the Fifth Annual Clean Technology and Renewables Conference which will be hosted by Piper Jaffray Companies, a leading international middle market investment bank and institutional securities firm.

On 23 February 2010, Mr. Keith Chau, CFO of Comtec and Mr. James Wang, COO of Comtec will present at the Conference, which is focusing on investments in the clean and renewable technologies sectors. The presentation had been scheduled for 23 February 2010 at 9:00am Eastern Time.

“We are honored to be invited to participate in this Conference. As a newly listed company on the Hong Kong Stock Exchange, we will strive to raise our corporate profile among the investment community by participating in conferences to meet shareholders and potential investors. Recently, the Group has announced that we will triple our production capacity to 600MW by 3Q2010. This is an exciting development which we hope to share with the investors.” Mr John Zhang commented.

Piper Jaffray hosts several client conferences and events each year focusing on the consumer, healthcare, financial services, alternative energy and technology sectors. The goal of each conference is to bring together key industry executives, investors and its own professionals to provide multiple perspectives, investigate critical trends and identify the leaders in the markets that are driving the global economy.

About Comtec Solar Systems Group Limited

Comtec Solar is a leading monocrystalline solar ingots and wafers manufacturer in the PRC. With its production base in Shanghai, the PRC, it focuses on the design, development, manufacturing and marketing of high-quality solar wafers. Comtec Solar, founded in 1999, is one of the first manufacturers in China to be able to mass produce 156mm x 156mm monocrystalline solar wafers with a thickness of approximately 170 microns. It has accumulated strong industry background from the manufacture of semiconductor ingots and wafers since 1999. Comtec Solar currently supplies most of its solar products to the leading solar cell/module manufacturers. Listed on Main Board of The SEHK on Oct .30, 2009, it is committed to enhancing product quality as well as developing new and innovative solar wafers. As it is well positioned to benefit from the growth of the solar PV industry, the Company aimed to broaden its customer base internationally.
