Comtec Solar considers ramping up capacity to over 1GW in 2011

- **2011 orders already 650MW with several potential orders still on queue**

Hong Kong, September 28, 2010 – Comtec Solar Systems Group Limited (“Comtec” or the “Company”, together with its subsidiaries the “Group”, stock code: HK: 712), a PRC-based leading manufacturer of monocrystalline solar wafers, is considering ramping up production capacity to over 1GW in 2011.

Comtec said that due to continuous strong demand from customers, the original planned capacity may not be able to cope with the upcoming orders for 2011. The Group had already promised to provide approximately 650MW wafers to major customers while additional orders requests continue to come in. Therefore, management is considering an increase in production capacity to over 1GW in order to satisfy customer demand.

— The End —

About Comtec Solar Systems Group Limited

Comtec Solar is a leading monocrystalline solar ingot and wafer manufacturer in the PRC. With its production base in Shanghai, it focuses on the design, development, manufacture and marketing of high-quality solar wafers. Comtec Solar, founded in 1999, is one of the first manufacturers in China to be able to mass produce 156mm x 156mm monocrystalline solar wafers with a thickness of approximately 170 microns. It has accumulated strong industry experience from the manufacture of semiconductor ingots and wafers since 1999. Comtec Solar currently supplies most of its solar products to the leading solar cell/module manufacturers. Listed on the Main Board of the SEHK on Oct. 30, 2009, it is committed to enhancing product quality as well as developing new and innovative solar wafers. As it is well positioned to benefit from the growth of the solar PV industry, the Company aims to broaden its customer base internationally.
